

Agenda

October 2, 2020 from 10am to 12:00pm

Orleans Parish Multi-Jurisdictional Hazard Mitigation Plan

City Hall Working Group Meeting

Welcome

We are here today to develop broad ideas that address the challenges faced by the City of New Orleans and its residents. From here, we will build out the Mitigation Actions for the 2020 Hazard Mitigation Plan (HMP).

Introductions

Presentation On The HMP Process and the Development of the Mitigation Strategy

Review and Update 2015 Mitigation Action Items

Discussion of new potential Actions

Individuals will share ideas and build a list of potential actions to be workshopped at the next working group meeting.

Next Steps

Between now and our next meeting, please take the time to build out your mitigation action proposal, including all details you can provide from scale, timing, cost, and continue to think through what data or questions do we need to understand? and What are we missing?
